

JGEEBILS Exam

The Tata Institute of Fundamental Research conducts the Joint Graduate Entrance Examination for Biology and Interdisciplinary Life Sciences, commonly known as JGEEBILS. This entrance exam serves as the gateway to various graduate programs, including Integrated M.Sc-Ph.D, M.Sc, and PhD programs.

The TIFR Nationwide Entrance Examination for Biology, known as GS 2023, is administered in a computer-based format and spans a duration of 2 hours and 30 minutes. The examination is conducted across 59 cities. It comprises a total of 60 questions covering subjects such as General Knowledge, Physics, Chemistry, and Biology.

Scoring in JGEEBILS is as follows:

- Each correct answer in Section A is awarded 1 mark.
- In Section B, correct answers are rewarded with 2 marks.
- For each incorrect response, a penalty of 0.5 marks is deducted.

TIFR JGEEBILS offers admission opportunities for PhD and Integrated Ph.D/M.Sc programs. To secure admission into their desired programs at JGEEBILS-affiliated institutions, candidates must first participate in the written test.

It's important to note that while all participating institutions consider JGEEBILS scores as a part of their admission process, each institution maintains its own unique admission procedure. Therefore, students interested in joining these institutions must apply separately to each one by visiting their respective websites.
